

NAME of activity	Creation of music instruments DRUMS
duration	2 Hours
audience	From 6 years old From 6 to 10 persons
Pedagogical goal	- discover a new instrument - play with sounds and drums - discover a new technics and new materials
Description	Drums can have several sizes, which will allow to get several sounds. The bigger they are, the lower is the sound. It is possible to use second hand material (petrol plastic cans, metal cylinders, cardboard or PVC tubes...) First, it is necessary to open the sides. One side will stay empty, the other will be covered by a « skin », on which we will kick with hands or sticks. The skin can be made with tape (2 or 3 thicknesses, plastic tarpaulin, balloons). Fix it with ropes, tape, or an old bike air chamber. Paint it
Material	Cardboard or PVC tubes, metal or plastic cans, Tape, Tarpaulin, Cardboard, glue, rope, air chamber
Space	Adapted to tinkering
Comments	After creating drums, you can create sticks
Restitution	Let's go to battucada
